PROFILE

BS Computer Science student with hands-on experience in frontend development, ASP.NET Core MVC, and Python. Skilled in HTML, CSS, JavaScript, Bootstrap, SQL, NumPy, and Pandas, with experience building practical web development projects. Currently developing skills in Data Analytics and Machine Learning and seeking an internship or junior-level opportunity to apply my knowledge and grow professionally.

PROJECTS

Ecommerce Website — ASP.NET Core MVC

- Developed a full-stack ecommerce website using ASP.NET Core MVC.
- Implemented product listing, user interface pages, and database-connected features.
- Improved understanding of MVC architecture, routing, models, views, and controllers.

Portfolio Website — HTML, CSS, JavaScript, Bootstrap

- Created a responsive personal portfolio website to showcase skills and projects.
- Designed clean sections for About, Skills, Projects, and Contact.
- Used Bootstrap for responsive layout and professional UI design.

To-Do List App — HTML, CSS, JavaScript, Bootstrap

- Built a simple and responsive task management application.
- Added features to create, complete, and delete tasks.
- Practiced DOM manipulation and JavaScript event handling.

Music Player — HTML, CSS & JavaScript

- Developed a web-based music player with playlist, play/pause, next/previous, and search features.
- Designed a modern UI with responsive layout and interactive controls.
- Used local storage concepts for managing user-side data.

EXPERIENCE

Remote Intern — Developers Hub Corporation

April 2026 - June 2026

- Worked on full-stack web development tasks and practical web projects.
- Improved skills in frontend design, backend concepts, and project development.
- Gained experience working on remote development tasks and meeting project requirements.
